

# The Exposure Triangle

**ISO arrow (light sensitivity)**  
[Shorter = lower ISO; less sensitive to light]  
[longer = higher ISO; more sensitive to light]

**Shorten Rule**  
As you shorten an arrow one  
or both the others must  
lengthen to allow  
the change

**Lengthen Rule**  
As you lengthen an arrow one  
or both the others must  
shorten to allow  
the change

**Aperture arrow**  
[shorter = smaller aperture]  
[longer = larger aperture]

**Shutter speed arrow**  
[shorter = shutter open short time]  
[longer = shutter open long time]
